

SkidVac 1000

VAXTEEL

The **SkidVac 1000** is a custom designed solution for on-site clean-up. The self-contained unit's initial use was within the oil drilling industry.

Components (shown):

- 1,000 Gallon VAXTEEL Vacuum Tank 1/4" Construction - Single Compartment
- NVE Challenger 866 Rotary Vane Vacuum Pump (519 CFM)
- Other Pump Options Available - Electric or Engine Drive.
- 20" Manways - Top & Side Mounted
- Upper Platform with Access Ladder
- 20" Primary Shutoff
- Load Ports with Brass Ball Valves - (2) 3" & (2) 4"
- Discharge Port with Brass Ball Valve - (1) 4"
- 4" Vertical Oil Catch Muffler (rated for 600 CFM)
- Load Level Indicator with Arrow
- Vacuum & Pressure Relief Valves
- Vacuum Pressure Gauge
